

# Math 520

## Video Project

### Video Review

---

We have watched video tutorials this year that use a variety of techniques. Now I would like you to reflect and write of review. When you write your review, please answer these questions.

- I. Describe specific examples of good teaching and why it was good teaching.
- II. Describe specific examples of what detracted from the learning experience.

While answering the two question above, you can choose from two formats. You can either...

1. Compare and Contrast two videos.
  - (a) Emphasize the similarities and the differences between the two videos.
  - (b) Which would you prefer and why.
2. Review one video.

Video Tutorial Resources...

- Our class website: [www.langmathcalculus.weebly.com](http://www.langmathcalculus.weebly.com)
- Just Math Tutorials (PatrickJMT): [www.patrickjmt.com](http://www.patrickjmt.com)
- Dr. Odden's YouTube Channel: [www.youtube.com/user/chrisodden](http://www.youtube.com/user/chrisodden)
- Khan Academy: [www.khanacademy.org](http://www.khanacademy.org)

Expectations...

**Length:** Not more than one page.

**Grade:** This will be part of your final project graded portfolio.

**Due Date:** This video review is due at the beginning of class on Monday, May 26, 2014.
